

bizHQ's 90-DAY PLANNING PROGRAMME

BUSINESSES DON'T PLAN TO FAIL... ... THEY FAIL TO PLAN

bizHQ's 90-Day Planning Programme is a one-day workshop where we guide business leaders through the process of producing an implementable 90-day plan. You can join a workshop with other like-minded business owners, or we can facilitate a bespoke workshop for your business team.

WHO SHOULD ATTEND THIS WORKSHOP?

Our 90-Day Planning Workshop was originally established for existing coaching clients, to provide structure and focus to the coaching programme.

Over the years, former clients who are no longer being coached, but who have previously benefitted from the structured process, continue to attend the quarterly workshop, as it forces them to document a plan that they can implement.

We have subsequently also extended the invitation to any businesses who are interested in developing a business plan.

The workshop is ideal for business owners, executives and department leaders who are responsible for driving the various areas of the business. Where possible, it is helpful to include your team in the process of planning, which not only assists in brainstorming ideas, but creates buy-in from the outset.

WORKSHOP CONTENT

The activities and tasks for the day typically include:

- a review of your previous quarter's performance;
- identifying specific business goals for the next quarter;
- a situational analysis;
- redefining or revisiting your business vision;
- a detailed gap analysis;
- setting RESULT goals; and
- breaking down the quarterly plan into daily, weekly and monthly actions.

CLIENT FEEDBACK

“Excellent workshop. Learning **how** to approach problems is much better than just learning about **what** to approach”

Travis Vermeulen, Sound Harmonics

BENEFITS AND OUTCOMES OF THE 90-DAY PLANS

- The programme helps business leaders to identify and focus on opportunities that will move the business forward.
- It provides a unique opportunity to spend the day out of the office to work ON your business rather than just IN it.
- You work alongside like-minded business leaders who share ideas and strategies that may benefit your business.
- You will leave at the end of the day with energy, a clear vision for the next 3 months, as well as a ready to implement plan of action to achieve your goals.

LET YOUR BUSINESS TAKE YOU PLACES
